DATE: June 13, 2019 8am-3pm

Reading a UCR report is one thing; articulating the numbers to those who ask about them is something entirely different. We teach you what you need to know to understand, explain, review, and report your crime statistics correctly. Learn why your crime analyst's numbers are always different than Records. Ensure that your agency stays out of the headlines and free of questionable crime reporting. Topics include:

- + Is your agency recording and reporting crime correctly?
- + Dealing with the media.
- + The difference between UCR stats and statute based stats.
- + Are your officers reporting multiple incident cases correctly?
- + Validating and presenting UCR stats.
- + How are crimes counted?
- + How are cases cleared?
- + Arrests vs. clearances.
- + When can you really exceptionally clear a case?
- + Learn the most common causes of erroneous stats
- + Get extensive e-course material with the class

"I attended the Crime Stats and UCR for the Police Executive seminar. As with the others, the class was very informative. Thanks for another great class!"
