

## Is it time to get organized and up to date?

Become a model of information excellence.

From records inventories, conversion, purging and scheduling to system integration and project management services, PRI is the sole criminal justice records management and technology firm specializing in these areas.

- + Records management annual plans
- + One-time inventories and purges
- + Agency records management policy and plan development
- + State compliance
- + Employee training
- + Digital transformation
- + Needs assessments
- + Internal audits
- + Procurement
- + System integration

### What People Are Saying About PRI

*"Any agency seeking to understand the ins and outs of what makes a capable Records Management System or needs help with an RMS project would do well to work with PRI."*

**City of Oakland, CA**

*"Your experience and expertise in the area of police operations, crime data and records management was a valuable resource I'd be happy to call on again if the need arises."*

**City of Nashville, Office of Internal Audit**

*"Having PRI on our team was crucial to the success of our start-up. There were countless times they brought up an item for review that wasn't on our radar and needed to be considered. They helped us avoid many roadblocks."*

**City of Vancouver Police Records Manager**

From clearing out the archives to planning and managing a records project, we specialize in justice information management operations.

Interagency information integration without paper-driven process leads to significant efficiency gains.

Digital signatures allow for rapid execution of business process. The law allows it. We can do it.

Policy and training is key to overcoming resistance to change. We understand culture and successfully modernize agency operations.
